Educate, Engage, Inspire

Interested in cyber defence, puzzles and code breaking?

CyberTaipan is an Australian cyber security competition for teams of students between 12-18 years of age.

Teams are tasked with managing the network of a small company over a four-hour period, finding cyber security vulnerabilities, receiving points for hardening the system, and maintaining critical services.

csiro.au/CyberTaipan

Modelled on the US Air Force Association's CyberPatriot program. CyberTaipan is presented by Northrop Grumman in partnership with CSIRO through the Digital Careers program.
