Australian Research Organisation

The Technology Commercialisation Challenge (TCC), part of the India-Australia Renewable Energy Partnership, is funded by the Department of Climate Change, Energy, the Environment and Water (DCCEEW). TCC brings together India's growing renewable manufacturing capabilities with Australia's leading R&D expertise.

Under the TCC, research and industry stakeholders will be supported in pursuing collaboration and technology development, aiming to establish formal relationships between Indian industry and the Australian research sector, and solving renewable manufacturing challenges.

Who should participate in the Challenge

This is a facilitated industry-research opportunity, to develop and support relationships between Australian Research Organisations or Australian startups and small-to medium-sized enterprises (SMEs) with Indian renewable manufacturers in:

- Solar photovoltaics
- Battery technologies
- Hydrogen technologies
- Associated technologies that support other key areas of the [India-Australia Renewable Energy Partnership](#).

Applications are currently open from Australian Research Organisations and Australian startups and small-to medium-sized businesses (SMEs) to participate in the Challenge.

More Information: For the full scope of the TCC and further details, please visit the [TCC website](#).

Completing your application:

- All questions are mandatory unless marked as 'optional'.
- Word limits (both minimum and maximum) apply. Please be succinct in your responses.
- You can save your progress and return to edit your application at a later time. Once you submit your application form, it is final and no further changes can be made.
- You should not disclose sensitive Confidential Information in the application.
- Eligible EOIs will be reviewed and the information you provide in the EOI will be shared with members of the TCC delivery team, DCCEEW, and domestic and international stakeholders to determine your suitability to partner with an Indian Renewable Energy Manufacturer under the TCC. The review process is overseen by CSIRO.
- **Please make sure that your contact information is entered correctly, as these details will be used to reach you regarding your application.**

Name of Faculty, Research Group, Centre, or Laboratory

Website of Faculty, Research Group, Centre, or Laboratory

Does any of your research team identify as: (optional)

First Nations/Indigenous

Migrant

Female

• All questions are mandatory unless marked as 'optional'.

- Please note: maximum word limits apply. Please be succinct in your responses.
- Your answers will be shared with local and international assessors and TCC partner organisations.

Expression of Interest Assessment Criterion

We will assess your EOI based on the weighting given to each criterion below. The amount of detail and supporting evidence you provide in your application should allow assessors to determine your capacity and capability to participate in Challenge Activities.

- **Alignment with key REP Priority Area (40%)**
- **Capacity, capability and resources to deliver the project (30%)**
- **Engagement with India (20%)**
- **Intellectual property in the REP Priority Area suitable for commercialisation or licensing (10%)**

Do not include sensitive commercial or confidential information in your answers.

Priority Area

Select the key area within the India-Australia Renewable Energy Partnership (REP) for which you are applying for this EOI:

- Solar photovoltaic
- Battery technologies
- Hydrogen technologies
- Associated technologies that support other key areas of the REP

Describe your key research expertise/capability in the selected Priority Area. 500 words

Outline any previous engagement with India and your interest to engage with India through participating in the Technology Commercialisation Challenge. 300 words

Describe your experience in renewable energy industry engagement and the commercialisation of technologies or products. Include details about any partnerships as well as the outcomes achieved through these activities. 300 words

Do you hold any intellectual property (e.g. patents) in the Renewable Energy Partnership Priority Area that you believe is suitable for commercialisation or licensing? Please provide details. 300 words

Provide details of the key persons in your team, including their roles and responsibilities, as well as the overall size of the team. 300 words

Upload any documentation that would support your EOI. (optional)

Additional documentation is supplementary only. All questions must be answered within the EOI form, as the review process will be based on the information provided to the questions. Additional documentation must support your answers.

List any websites/webpages that would support your EOI. (optional)

Listing websites is supplementary only.

Acknowledgement and declaration

Privacy Statement & Consent

I agree to the collection, use and disclosure of my personal information, including my sensitive information, in the ways described in the TCC Privacy Statement <https://csiro.au/en/work-with-us/International/The-Technology-Commercialisation-Challenge/Privacy-Statement>

I have obtained consent from any other people whose personal information is included in this application and in any documentation submitted in connection with this application, and let them, and any future team members, know that the TCC Privacy Statement is available at <https://csiro.au/en/work-with-us/International/The-Technology-Commercialisation-Challenge/Privacy-Statement>

I confirm I have obtained all necessary permissions, consents and approvals in relation to the information disclosed in or in connection with this application.

I confirm that I and all potential participants are aged over 18.

I would like to receive updates on future programs and news from CSIRO. (optional)

I agree to the disclosure of my personal information, including my sensitive information, to CSIRO, Creative Force (operating the Good Grants platform) and relevant Australian government entities (including AusTrade and DCCEEW), suppliers, mentors, corporates, sponsors and industry partners. I understand that disclosure to overseas suppliers, mentors, coaches, corporates, sponsors and industry partners will require disclosure of my personal information to entities based outside of Australia. I acknowledge that after being disclosed to overseas entities, my personal information may no longer be subject to the requirements of the Privacy Act 1988 (Cth).

I confirm that I understand submitting an EOI does not guarantee that my EOI will be reviewed by an Indian Renewable Energy Manufacturer nor that I will be invited to submit a Grant Application.

The Technology Commercialisation Challenge Grant Opportunity Guidelines and the sample Participation Agreement are available to view on the TCC website.
