# Australian Research Organisation

The Technology Commercialisation Challenge (TCC), part of the India-Australia Renewable Energy Partnership, is funded by the Department of Climate Change, Energy, the Environment and Water (DCCEEW). TCC brings together India's growing renewable manufacturing capabilities with Australia's leading R&D expertise.

Under the TCC, research and industry stakeholders will be supported in pursuing collaboration and technology development, aiming to establish formal relationships between Indian industry and the Australian research sector, and solving renewable manufacturing challenges.

## Who should participate in the Challenge

This is a facilitated industry-research opportunity, to develop and support relationships between Australian Research Organisations or Australian startups and small-to medium-sized enterprises (SMEs) with Indian renewable manufacturers in:

- Solar photovoltaics
- Battery technologies
- Hydrogen technologies
- Associated technologies that support other key areas of the [India-Australia Renewable Energy Partnership](#).

Applications are currently open from Australian Research Organisations and Australian startups and small-to medium-sized businesses (SMEs) to participate in the Challenge.

**More Information:** For the full scope of the TCC and further details, please visit the [TCC website](#).

## Completing your application:

- All questions are mandatory unless marked as 'optional'.
- Word limits (both minimum and maximum) apply. Please be succinct in your responses.
- You can save your progress and return to edit your application at a later time. Once you submit your application form, it is final and no further changes can be made.
- You should not disclose sensitive Confidential Information in the application.
- Eligible EOIs will be reviewed and the information you provide in the EOI will be shared with members of the TCC delivery team, DCCEEW, and domestic and international stakeholders to determine your suitability to partner with an Indian Renewable Energy Manufacturer under the TCC. The review process is overseen by CSIRO.
- **Please make sure that your contact information is entered correctly, as these details will be used to reach you regarding your application.**

Applicant Name

Email

What is your primary **project aim** to solve the Challenge Statement in collaboration with your nominated Indian industry partner. 300 words

Succinctly list up to three **key activities** you plan to undertake with your nominated Indian industry partner during the collaboration period.

Description	
1	Key activity 1
2	Key activity 2
3	Key activity 3

You and/or your nominated participants will be required to travel to India at the end of November 2026 for an in-person meeting with your Indian industry partner. 300 words

Outline the anticipated activities during your India visit in November, as discussed with your nominated Indian industry partner, that will support your collaboration project.

Outline any other potential travel to India that would progress your collaboration activities or engagement with India (e.g. attendance at a conference).

What are the expected deliverables/outcomes from your collaboration project with the nominated Indian industry partner? 300 words

Provide an indicative breakdown of the following activities and associated estimated costs.

Expenditure	Cost breakdown (high-level description)	Total cost
1	Labour	
2	Travel	
3	Consumables	
4	Other	
5	Total	

Have you signed a Non-Disclosure Agreement (NDA) or confidentiality agreement with your nominated Indian industry partner.

- Yes  
 Not yet

Have you registered your intention to apply for this Challenge with your Research Office/Commercialisation team?

- Yes  
 Yet to advise. I acknowledge the support of the Research Office, Technology Transfer and Commercialisation personnel will be required if this application is successful.

## Acknowledgement and Declaration

Please ensure you have re-read the Technology Commercialisation Challenge Privacy Statement before submitting your application.

- I have obtained consent from any other people whose personal information is included in this application and in any documentation submitted in connection with this application, and let them know that the TCC Privacy Statement is available at <https://www.csiro.au/en/work-with-us/International/Technology-Commercialisation-Challenge/Privacy-statement>
- I have informed all current potential members of the application team about the TCC Privacy Statement and will ensure any future team members are made aware as they join the project.
- I confirm I have obtained all necessary permissions, consents and approvals in relation to the information disclosed in or in connection with this application.
- I agree to the disclosure of my personal information, including my sensitive information, to CSIRO, Creative Force (operating the Good Grants platform) and relevant Australian government entities (including AusTrade and DEECCW), suppliers, mentors, corporates, sponsors and industry partners. I understand that disclosure to overseas suppliers, mentors, coaches, corporates, sponsors and industry partners will require disclosure of my personal information to entities based outside of Australia. I acknowledge that after being disclosed to overseas entities, my personal information may no longer be subject to the requirements of the Privacy Act 1988 (Cth).
- I agree to the use of images, audio and/or video recordings taken during the program being used for (optional) promotional and social media purposes.
- I confirm that I have read and understood the Technology Commercialisation Challenge Grant Opportunity Guidelines and the sample Participation Agreement.

*The Technology Commercialisation Challenge Grant Opportunity Guidelines and the sample Participation Agreement are available to view on the TCC website.*
