Science ship in a box

Ride the waves in an Antarctic storm, fly through the atmosphere on a data-stream and dive into the abyss to uncover the mysteries of the deep. Join us aboard Australia's advanced blue-water research vessel, *RV Investigator*, without getting your feet wet!

INVESTIGATE

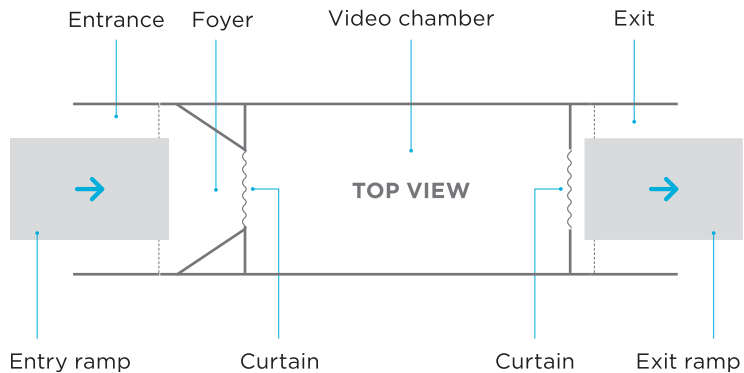

IMMERSIVE
CINEMA
EXPERIENCE

Come aboard come explore

Investigate is a self-contained immersive cinema experience housed in a re-purposed shipping container. The container's roof and two sides are equipped with video walls and a state-of-the-art sound system.

Investigate invites people to dive a little deeper and discover the capabilities, missions and discoveries of RV *Investigator*.
