

International Hydrogen Research Fellowship

Request for Approval to use Funds for Family Assistance

The International Hydrogen Research Collaboration Program provides funds to enhance the career and professional development of the award recipient. As part of the grant, recipients are encouraged to gain experience in an overseas world-leading academic or industry research facility for a period of at least three and up to twelve months.

If family responsibilities would otherwise preclude a recipient from undertaking an external placement, they can apply **once only** for approval to use a portion of the award as a contribution towards the travel costs of their family. Consideration will be on a case by case basis. The request must also have the approval of their employer. A request for approval to use award funds for family travel must be received in advance. Back-dated requests will not be considered.

The maximum amount of the award that can be used for family travel assistance is \$2,500 for partner's travel costs and \$2,500 per child under 18 years with a maximum of 3 children at \$7,500. A maximum amount of family assistance that can be applied for is \$10,000 in addition to \$1000 total to be used as needed to relocate or purchase residential items. The Family Travel Assistance is to be used to assist in airfare costs and accommodation up to the approved amount. The Family Travel Assistance is not to be used for food, incidentals, local travel, and other living costs for family members that are incurred while accompanying the research fellow.
