

## Innovate to Grow: Farm and Food Technology

Applications are now open for a free 8-week program for small to medium-sized enterprises (SMEs) working in farm and food technology. The program supports participants to explore how research and development (R&D) can advance their project or ideas.

### Build your R&D idea

SMEs play a key role in growing Australia's innovation capability, but having the right support is critical to success.

Our free online 8-week program will help build your skills and networks so you can learn how to advance your idea with R&D.

### Apply today

Applications close: 15 February 2026

Program starts: 12 March 2026

## Key program outcomes

**Personalised support to refine your idea:** We'll step you through the process of turning your idea into a viable research project.

**Confidential feedback:** All submissions through the program portal will receive prompt expert feedback.

**Coaching:** You will be paired with a R&D coach from CSIRO or a university to help connect you with a relevant specialist.

**Build your network:** You will build key contacts in your sector, including researchers and other SMEs.

### Key program outputs include how to:

- Identify strengths and weaknesses of your business idea
- Build your R&D project plan
- Develop your project roadmap and funding strategy
- Review your business idea and create a list of priorities and actions.

## Commitment and course outline

### Preparing for the program (3-4 hours)

Onboarding session, pre-workshop videos and reading materials.

### Week 1 (Starts on 12 March 2026)

#### Workshop (3.5 hours)

Guest speakers from CSIRO, sector experts and SMEs who will provide tips and information on topics such as trends and opportunities, innovation experience and funding. You will also meet your fellow participants and R&D coach.

#### Weeks 2-8

#### Self-paced innovation program (2-3 hours per week)

Participants explore opportunities to grow their business through innovation and research.

Fortnightly virtual webinars for participant networking and guest speakers.

## Who can attend

Participants based and operating in Australia who are working on a farm and food technology idea including any sub-sector such as:

- Agritech and AI
- Food and beverage manufacturing, packaging and transport
- Livestock and aquaculture
- Value-add products
- Waste optimisation and recycling
- Energy reduction and circular economy
- Other emerging farm and food technology applications

### Selection criteria (essential):

- A business based and operating in Australia that is registered with an ABN
- A business classified as small to medium (<200 employees)
- An R&D idea to work on throughout the program related to farm and food technology.

*Please note: Australian subsidiary companies of foreign entities are not eligible.*

### Other considerations:

- A strong alignment to the purpose of the program
- A clear desire to investigate a R&D project

## Previous participant feedback

"Innovate to Grow is a fantastic program and has opened my eyes to research teams available for small businesses which I never knew existed."

Esther Rupenovic, Jack and Chelo

CSIRO Innovate to Grow is delivered using Practera's online ed-tech platform and facilitation services.
