

## How to... **Evaluate a learning activity**

This guide will help you assess how the STEM Professionals in Schools partnership activity went, what worked well and what might work better next time. Reflect on whether it met your objectives to help you develop future activities with your partner.

Use the *Activity Evaluation template* in this guide to assess how the activity went and ask your partner what they thought.

### **Supporting activities**

Your STEM Professionals in Schools project officer is available to support your partnership. We also love sharing practices that are happening across the country as it helps generate ideas for other partnerships.

“

The STEM professional conducted a series of lessons closely connected to the curriculum. It was great to see a STEM professional at work and how closely their work is actually related to what we do at school.

TEACHER – STEM PROFESSIONALS IN SCHOOLS PROGRAM

# Learning activity evaluation

This Learning activity evaluation template will help you record the details of your learning activity and evaluate what worked well and what could be improved. Share the evaluation with your partner to ensure expectations were met. This will also help with future planning.

|   |  |
|---|--|
| <b>Learning activity/session task</b>   |  |
| <b>What was the learning intention? Did you achieve this?</b>   |  |
| <b>What worked well? What were the highlights?</b>  |  |
| <b>Is there anything you would change? If yes, what?</b>  |  |
| <b>What was the highlight for you?</b>  |  |
| <b>What was the students' feedback about the learning activity?</b>                                   |  |
| <b>What follow-on opportunities and other learning activities could you and your partner achieve?</b> |  |
