This document was created in response to a Freedom of Information request made to CSIRO.

FOI number: FOI2011/55

Date: 13 April 2012

Request: Documents relating to documentary evidence of verification testing (DNA or otherwise) conducted on Marsanne or Reichensteiner vines at all CSIRO facilities in the period from 1975 to 13 January 2012.

Document: Part 1 (Docs 1-10)

For more information, please refer to CSIRO's FOI disclosure log at [www.csiro.au/FOILog](http://www.csiro.au/FOILog)
Mr. A. Antcliff,

Private Bag,
VERNETTE, Victoria, 3505

Dear Allan,

I am preparing a Departmental request to introduce grape varieties into South Australia, and I would like to ask you to reserve cuttings for me until formal approval is granted.

Could you please reserve two cuttings each, taken from a single vine, of the following:

Also, if available, two cuttings of the following:

Deletion

NERBEIN, VIC. 3505

Dear Allan,

I am preparing a formal request to introduce grape varieties into South Australia and I wish to ask for your assistance. Could you please save some cuttings for me until formal approval to introduce them is granted. Two cuttings each, taken from a single vine, of the following varieties would be most appreciated.

C.70 8289
Reichen steiner

Could you also reserve two cuttings each of the following rootstocks. Would it be possible for you to give me some prior warning as to when these stocks will be released from Commonwealth quarantine as it may be possible to avoid subsequent quarantine in South Australia if the cuttings come direct from your quarantine glasshouse into South Australia. (The Phylloxera Board will be revising and updating their introduction procedures at their next meeting, and the procedure described above will be suggested to them).
Mr. A. Antcliff

Dear Allan,

I am preparing a formal request to introduce grape varieties into South Australia this spring and I wish to ask for your assistance.

Could you please save some cuttings for me until formal approval to introduce them is granted. Four cuttings each, taken from a single vine, would be most appreciated. The varieties are:-
